

IR RECEIVER UNIT INSTALLATION MANUAL

For authorized service personnel only.

UTY-LRH*B1

⚠ WARNING	This mark indicates procedures which, if improperly performed, might lead to the death or serious injury of the user.
	For the air conditioner to operate satisfactorily, install it as outlined in this installation manual.
	Installation work must be performed in accordance with national wiring standards by authorized personnel only.
	Do not turn on the power until all installation work is complete.

- Let the customer keep this installation manual because it is needed when the air conditioner or IR receiver unit is serviced or moved.

⚠ CAUTION	This mark indicates procedures which, if improperly performed, might possibly result in personal harm to the user, or damage to property.
	Do not wire the IR receiver unit wire together with or parallel to the transmission cables, remote controller cables and power supply cables of the indoor unit. It may cause erroneous operation.
	Do not install the IR receiver unit wire near a source of electromagnetic waves.
